RELAY | LoadStop
One Window Smart TMS

Relay integrates with LoadStop!

Benefits of the Relay + LoadStop TMS Integration

- Enables customers Relay Fuel, Lumpers, and other transaction data to be pulled into LoadStop daily via our open API.

- LoadStop automatically allocates those transactions to various places in LoadStop like Accounting, IFTA and Settlements.

When you fuel with Relay you can:

- Reduce fraud with strict controls, monitoring, and innovative geofencing technology.

- Take advantage of Relay's Clutch Program for discounted fuel, and use any existing discounts you directly negotiated with merchants.

- Allow drivers to conveniently locate on-route truck stops and discounts from Relay's app.

- Instantly enable digital payments across your fleet without lengthy activations.
